2797	MANUFACTURED, MODULAR, OR PREFABRICATED HOME MANUFACTURING - SHOP WORK - ALL OPERATIONS & DRIVERS	This classification applies to insureds that manufacture or fabricate manufactured, modular, or prefabricated homes at a factory site only. Manufactured homes are also known as mobile homes. Framing can be done with wood or metal studs. Manufacture of masonry or concrete modular building (built in a shop, transported to the site, and set in place) must be separately rated. This classification includes the manufacturing of nonmotorized construction, home-type, medical, and bank trailers, and similar portable buildings; campers that are set on pickup trucks; and truck sleepers that are mounted behind the cab of semi trucks. It includes installation or repair of the before-mentioned products assembled at the factory site only. This classification also includes delivery performed by the manufacturer. Delivery from an outside trucking company must be separately rated to the appropriate trucking classification. Setup, hookup, installation, or finish work at a job site must be separately rated.

<u>CLASS</u>	<u>PHRASEOLOGY</u>	<u>DESCRIP</u>
2799	MANUFACTURED, MODULAR, OR PREFABRICATED HOME SETUP, HOOKUP, OR INSTALLATION AT BUILDING SITE	Code 2799 includes the use of any lifts, jacks, cranes, or dollies to place home sections onto the foundation or foundation walls, bolt the sections together, and remove any wheels or axles. It also includes the hookup of any preinstalled utilities in the foundation - such as electrical, plumbing, telephone, water, sewer, or cable television - to the connections on the manufactured or modular home. Covering up or hiding the seams of each section of a manufactured or modular home, installing windstorm tie-downs on a manufactured home, or spiking a modular home through the foundation wall is assigned to this classification if done by a dealer or specialty contractor. Manufactured homes are also known as mobile homes. Any construction not associated with the original setup, hookup, or installation of the home, or disassembly and reassembly work required to move the home, must be assigned to the applicable construction code. For example, separately rate the following: Construction operations that include site preparation or repair work prior to the setup and after the setup. Installation of siding, insulation, skirting, deck, fence, septic tank, concrete foundation or sidewalks, or concrete block walls. Garage building, landscaping, concrete or pave driveway or road building, site prep work, and grading or excavation work to the home or at the building site.

5606	CONTRACTOR - PROJECT MANAGER, CONSTRUCTION EXECUTIVE, CONSTRUCTION MANAGER OR CONSTRUCTION SUPERINTENDENT	This classification is available only to project managers, construction executives, construction managers, or construction superintendents having administrative or managerial responsibility for construction or erection projects. When determining eligibility, it is the job duties, and not the job titles, that are the main consideration. 1. "Project Manager, Construction Executive, Construction Manager, or Construction Superintendents" are defined as those persons exercising operational control indirectly through full-time job supervisors or foremen of the employer. 2. When exercising control through a subcontractor, each subcontractor must have a job supervisor or foreman at the specific job site in order to permit the assignment of this classification. The supervisor or foreman of the subcontractor may manage one site or multiple sites. If any of the subcontractors do not have a job supervisor or foreman at any job site visited by the construction executive, all of the payroll of the construction executive for that policy year is assigned to the highest rated construction class code applicable. A sole proprietor or owner/operator with no employees, working as a subcontractor for the insured, would prevent the assignment of this classification to a construction executive because the subcontractor does not have the required job supervisor or foreman. 3. This code does not apply to any person who is directly in charge of or who is performing any degree of actual construction work. Such person must be assigned to the classification that specifically describes the type of construction or erection operation over which they are exercising direct supervisory control provided separate payroll records are maintained for each operation. Any such operation for which separate payroll records are not maintained must be assigned to the highest rated classification that applies to the job or location where the operation is performed. 4. Code 5606 is not available for division of a single employee's payroll with any other classification.
	EXPEDITER	
5610	CLEANER-DEBRIS REMOVAL - CONSTRUCTION	Does not apply to the payroll for cleaners except when the payroll for cleaners, timekeepers, and watchguards is more than all other payroll of the insured that is subject to construction or erection classifications at the same job or location. Cleaners included in Code 5610 remove debris left by the construction crews after construction has been completed. Refer to Code 9014 for cleaning service contractors who provide clean-up crews to wash windows and sweep and mop floors to prepare a location for its intended use. Refer to the appropriate construction code for laborers who perform work to complete tasks that have been identified as part of a post-construction "punch-out" list.

6003	PILE DRIVING	Includes pile driving operations including, but not limited to, hammer driving and water jet driving only in conjunction with pile driving. All other water jet operations are assigned to the appropriate drilling code. This process may be done in conjunction with building foundations, all types of marine docks, boardwalks, piers, boathouses, seawalls, groynes (groins), jetties, breakwater and timber wharfs. The manufacturing of concrete piles at the job location or the pouring of concrete into hollow steel piles must be separately rated under the appropriate concrete construction code. Pile driving operations performed in connection with caisson work to be separately rated as Code 6252. The use of Code 6003 is allowed when pile driving is performed on any marine or non-marine construction. For construction where an employer obtains coverage under the United States Longshore and Harborworkers Act, use the state-approved factor found in the state pages.
	BRIDGE PILE BENT WRECKING - MARINE	Includes salvage operations. Includes marine wrecking or demolition of all types of marine docks, boardwalks, piers, boathouses, seawalls, groynes (groins), jetties, breakwater, and timber wharfs. Includes salespersons and clerical at wrecking site

6005	JETTY OR BREAKWATER CONSTRUCTION-ALL OPERATIONS TO COMPLETION & DRIVERS	Includes the construction of jetties, breakwaters, seawalls, groynes, dikes, revetments, etc. A jetty involves substantially more construction than either a dike or a levee in that it must extend into a body of water. River work is also included in this classification.
	PROTECTIVE CRIB BUILDING - MARINE	
6045	LEEVE CONSTRUCTION-ALL OPERATIONS TO COMPLETION & DRIVERS EARTH FILLING IN	
6204	DRILLING NOC & DRIVERS	Code 6204 is applied to specialist contractors engaged in drilling work not otherwise classified. All types of drilling are included, except drilling related to oil or gas wells or drilling in underground mines. The code is not applicable to drilling performed by an artisan, such as a plumber or electrician, as a part of their work.
	ARTESIAN WELL DRILLING CONCRETE - BREAKING GROUTING - DRILLING OF HOLES & DRIVERS IRON ORE EXPLORATION SOIL TESTING - DRILLING WELL DRILLING-WATER & DRIVERS	Pump installation is to be separately classified from water well drilling provided that verifiable payroll records are maintained for each operation, and drilling equipment is not used to install the pump.

<u>CLASS</u>	<u>PHRASEOLOGY</u>	<u>DESCRIP</u>
6206	OIL OR GAS WELL: CEMENTING & DRIVERS	Code 6206 must not be assigned at the same job or location to which Code 6235 applies because cementing would be considered incidental to drilling operations or the installation of casing. Includes flowback services when performed in support of fracturing operations.
	OIL OR GAS WELL: ACIDIZING-ALL EMPLOYEES & DRIVERS	Code 6206 must not be assigned at the same job or location to which Code 6235 applies because acidizing would be considered incidental to drilling operations. Includes flowback services when performed in support of fracturing operations.
	WATER WELL ABANDONMENT & DRIVERS (GENERALLY CLOSED BY CEMENTING)	
6213	OIL OR GAS WELL: SPECIALTY TOOL & EQUIPMENT LEASING NOC - EMPLOYEES & DRIVERS	Applicable to insureds that lease special tools and equipment used by drilling contractors. These insureds usually provide supervisory personnel with the equipment. Insureds that furnish complete operating crews with such equipment must be assigned to Code 6235.
6216	OIL OR GAS LEASE WORK NOC BY SPECIALIST CONTRACTOR & DRIVERS	Includes the laying or taking up flow lines and water lines; installing central pumping units; and tank truck operations servicing oil or gas well sites. The following operations are not included in Code 6216 and must be separately rated: pipeline construction, tank building; rig or derrick erecting or dismantling; installation or recovery of casing; drilling, cementing, cleaning and swabbing of wells or well shooting. Not applicable to owner/operators of an oil or gas lease operation, or to a risk under contract with the lease owner that performs all operations necessary to work an oil or gas lease. Drill site preparations including but not limited to clearing land; building lease roads, slush pits, levees, or fire walls; and lease beautification or dirt work performed by a specialist contractor are classified to codes applicable to these operations, provided the services are performed prior to rig erection. Specialist contractors who perform these services during or after rig erection are assigned to Code 6216.
6217	EXCAVATION & DRIVERS	Includes burrowing, filling, or backfilling. Grading or excavation in connection with street or road construction, dam or lock construction, tunneling, pile driving, shaft sinking, caisson or cofferdam work to be separately rated.
	BLASTING - ROCK - SPECIALIST CONTRACTORS & DRIVERS

7230	TRUCKING PARCEL OR PACKAGE DELIVERY-ALL EMPLOYEES & DRIVERS	Applies to risks engaged exclusively in delivery from retail stores under term contracts. Includes miscellaneous employees such as terminal employees, garage employees and repairers. Truckers hauling under contract, whether for one or more individuals or employers, must under no circumstances be classified except in accordance with the appropriate trucking classification. When trucking operations are a secondary business and conducted as a separate undertaking or enterprise, the payroll of an individual employee may be divided and allocated to other than a trucking classification.
7231	MAIL, PARCEL, OR PACKAGE DELIVERY AND COURIER OR MESSENGER SERVICE COMPANIES - ALL EMPLOYEES AND DRIVERS	Applies to couriers, messengers, and others who deliver nonowned envelopes, parcels or packages exclusively for local delivery. Mail, parcels, or packages, as shown in the classification phraseology, refers to those items where the delivery tariff or charge is allocable to the individual envelope, parcel, or package. This classification would not be applicable to truckers hauling packaged goods or merchandise where the haulage or transport charge is based on a truckload or partial truckload, the cumulative weight of the packages and/or parcels being transported or a flat contract price for the consignment. The term "local" is intended to limit the radius of operations to that which would permit a driver to complete the assigned deliveries and return to the point of dispatch within the normal workday.
7232	TRUCKING MAIL, PARCEL, OR PACKAGE DELIVERY-UNDER CONTRACT WITH THE U.S. POSTAL SERVICE-ALL EMPLOYEES & DRIVERS	Applies to risks engaged under contract to the U.S. Postal Service for delivery of mail involving letters, parcels, packages, sacks, pallets, and rolling containers. Includes both U.S. Postal Service contract mail delivery performed on a bulk basis as well as on an individual letter, parcel or package basis. Includes miscellaneous employees such as terminal employees, garage employees, and repairers. Truckers hauling under contract, whether for one or more individuals or employers, must under no circumstances be classified except in accordance with the appropriate trucking classification. When trucking operations are a secondary business and conducted as a separate undertaking or enterprise, the payroll of an individual employee may be divided and allocated to other than a trucking classification.

7370	TAXICAB CO.-ALL OTHER EMPLOYEES & DRIVERS	<p>The entire payroll of all taxicab drivers shall be included in calculating the premium. In the absence of verifiable payroll records, the premium charged will be determined on the basis of the amount per vehicle per policy year for employee-operated vehicles shown in the state rate pages under Miscellaneous Values. This amount is subject to pro rata adjustment only when a vehicle is owned by the insured for a portion of the policy period. If the owner also leases or rents such vehicles, an additional premium shall be calculated on the basis of the amount per vehicle per policy year for leased or rented vehicles shown in the state rate pages under Miscellaneous Values. This amount is subject to pro rata adjustment only when the lease is for a portion of the policy period. These amounts are in consideration of gratuities, multiple shifts, downtime, vacation time or other periods during which the vehicle is not in operation. For basis of premium, for taxicab rentals wherein accurate records are obtainable for hours of use of such cab the state minimum wage shall apply (state minimum wage x hours worked = payroll). Such minimum wage shall be adjusted to be flexible to equal the increases and/or decreases in minimum wages as published in the State of Wisconsin. In those instances wherein accurate hours of use of cabs cannot be obtained, see Miscellaneous Values as published in the Wisconsin Rate Pages. Garage employees are to be separately rated to Code 8385.</p>

8037	STORE-SUPERSTORES AND WAREHOUSE CLUBS	Superstores and warehouse clubs are large retail establishments with multiple departments, with each department selling a specific type of merchandise. Warehouse clubs may have a large percentage of business memberships. This does not preclude them from assignment to this classification. Due to the nature of these operations, the principal type of merchandise sold (i.e., more than 50% of gross receipts) may vary from year to year; therefore, superstores and warehouse clubs will not be classified based on the principal type of merchandise sold. A key distinction between superstores and department stores, discount department stores, or other retail operations is that superstores sell groceries such as milk, juices, cereals, crackers, cookies, frozen dinners, frozen desserts, etc., in addition to clothing and their other types of merchandise. Many superstores have full grocery operations with fresh produce, meat, seafood, and baked goods in addition to clothing and their other types of merchandise.
