AVIATION: TRANSPORTATION OF PERSONNEL IN
CONDUCT OF EMPLOYER'S BUSINESS - FLYING CREW

CLASS DESCRIP

7421 Applies to the payroll of pilots and all members of the flying crew. Also applies to the payroll of executive officers or other employees who operate fixed-wing aircraft in the conduct of the employer's business. If the records of the employer clearly indicate the weeks in which such employees perform flying (1) only the payroll for each week during any part of which the employee has engaged in flight duties is to be assigned to this classification unless the classification applicable to the employee's non-flying operations carries a higher rate in which case that classification will apply and (2) the payroll for each week in which no flying has been done is to be assigned to those classifications that would otherwise apply. If the records of the employer do not clearly indicate the weeks in which flying is performed by such employees, the entire payroll for such employees must be assigned to this classification unless the classification applicable to the employee's non-flying operations carries a higher rate in which case that classification will apply. Employees who are transported as passengers and who are not members of the flying crew are to have their payroll and losses assigned to their standard occupational classification. Commercial aircraft operation to be separately rated. Separately rate all other employees and drivers.

CONSTRUCTION – JOB SITE SALESPERSONS AND ESTIMATORS

CLASS

8720

DESCRIP

Applies to employees who perform job site measurements or inspections to prepare bids for a job for a construction contractor. Employees who work for contractors and provide sales estimates, but do not conduct the actual construction, are also assigned to Code 8720. Employees may perform these measurements or inspections from ground level, in crawl spaces, on ladders, or on roofs. Code 8720 does not apply when the employee also performs construction duties or supervises construction workers at the same job site. In those cases, the employee’s payroll at that job site must be assigned to the appropriate construction classification. A division of payroll is not permitted between Code 8720 and a construction classification on any single job site.

PHRASEOLOGY

CONTRACTOR - PROJECT MANAGER, CONSTRUCTION EXECUTIVE, CONSTRUCTION MANAGER OR CONSTRUCTION SUPERINTENDENT

CLASS DESCRIP

5606 This classification is available only to project managers, construction executives, construction managers, or construction superintendents having administrative or managerial responsibility for construction or erection projects. When determining eligibility, it is the job duties, and not the job titles, that are the main consideration. 1. "Project Manager, Construction Executive, Construction Manager, or Construction Superintendents" are defined as those persons exercising operational control indirectly through full-time job supervisors or foremen of the employer. 2. When exercising control through a subcontractor, each subcontractor must have a job supervisor or foreman at the specific job site in order to permit the assignment of this classification. The supervisor or foreman of the subcontractor may manage one site or multiple sites. If any of the subcontractors do not have a job supervisor or foreman at any job site visited by the construction executive, all of the payroll of the construction executive for that policy year is assigned to the highest rated construction class code applicable. A sole proprietor or owner/operator with no employees, working as a subcontractor for the insured, would prevent the assignment of this classification to a construction executive because the subcontractor does not have the required job supervisor or foreman. 3. This code does not apply to any person who is directly in charge of or who is performing any degree of actual construction work. Such person must be assigned to the classification that specifically describes the type of construction or erection operation over which they are exercising direct supervisory control provided separate payroll records are maintained for each operation. Any such operation for which separate payroll records are not maintained must be assigned to the highest rated classification that applies to the job or location where the operation is performed. 4. Code 5606 is not available for division of a single employee's payroll with any other classification.

CLASS DESCRIP

2702 Non-mechanized Equipment Operations and Drivers - Code 2702 is applicable to the operations at any logging site which does not meet the qualifications for Code 2709. Equipment used in non-mechanized logging operations include, but is not limited to, chain saws, buck saws, axes, horses, farm tractors, cable skidders, winches and other home made equipment that requires the operator to be in physical contact with trees and raw forest products while harvesting them. Code 2702 is available for division of payroll with Code 2709 Logging or Lumbering: Mechanized Equipment Operations and Drivers provided proper payroll records are kept for those employees when operating qualifying equipment. If a separate legal entity is established for haulers of raw forest products, assign to the appropriate trucking classification. When a logging contractor engages employees who furnish trucks, tractors or horses, the following percentage of payments to such employees shall constitute payroll for premium determination. Contracted Work % of Gross Payment: Skid only - 40%; Cut and skid logs or pulpwood - 55%; Mechanized felling or processor - 33 1/3%; Slashing operations - 33 1/3%; Haul logs or pulpwood - 33 1/3%; Cut, skid and haul logs or pulpwood - 60%.

MACHINED PARTS MFG NOC	3629	Applies only to employers that machine single-piece parts for others that meet all of the following conditions: 1. The employer's operations are not described by another classification. 2. The machined parts manufactured by the employer are not described by another classification. 3. The employer does not assemble any single-piece machined parts into end-product components. Assembly operations include, but are not limited to, welding, fastening, inserting, pressing, and the joining of springs, ball bearings, gears or other parts or components to any other part or component. 4. The employer does not perform casting, forging, stamping, forming, or fabrication.

Mail, parcels, or packages, as shown in the classification phraseology, refers to those items where the delivery tariff or charge is allocable to the individual envelope, parcel, or package. This classification would not be applicable to truckers hauling packaged goods or merchandise where the haulage or transport charge is based on a truckload or partial truckload, the cumulative weight of the packages and/or parcels being transported or a flat contract price for the consignment. The term "local" is intended to limit the radius of operations to that which would permit a driver to complete the assigned deliveries and return to the point of dispatch within the normal workday.

MANUFACTURED, MODULAR, OR PREFABRICATED HOME MANUFACTURING - SHOP WORK - ALL OPERATIONS & DRIVERS	2797	This classification applies to insureds that manufacture or fabricate manufactured, modular, or prefabricated homes at a factory site only. Manufactured homes are also known as mobile homes. Framing can be done with wood or metal studs. Manufacture of masonry or concrete modular building (built in a shop, transported to the site, and set in place) must be separately rated. This classification includes the manufacturing of nonmotorized construction, home-type, medical, and bank trailers, and similar portable buildings; campers that are set on pickup trucks; and truck sleepers that are mounted behind the cab of semi trucks. It includes installation or repair of the before-mentioned products assembled at the factory site only. This classification also includes delivery performed by the manufacturer. Delivery from an outside trucking company must be separately rated to the appropriate trucking classification. Setup, hookup, installation, or finish work at a job site must be separately rated.

CLASS

DESCRIP

2799

Code 2799 includes the use of any lifts, jacks, cranes, or dollies to place home sections onto the foundation or foundation walls, bolt the sections together, and remove any wheels or axles. It also includes the hookup of any preinstalled utilities in the foundation - such as electrical, plumbing, telephone, water, sewer, or cable television - to the connections on the manufactured or modular home. Covering up or hiding the seams of each section of a manufactured or modular home, installing windstorm tie-downs on a manufactured home, or spiking a modular home through the foundation wall is assigned to this classification if done by a dealer or specialty contractor. Manufactured homes are also known as mobile homes. Any construction not associated with the original setup, hookup, or installation of the home, or disassembly and reassembly work required to move the home, must be assigned to the applicable construction code. For example, separately rate the following: Construction operations that include site preparation or repair work prior to the setup and after the setup. Installation of siding, insulation, skirting, deck, fence, septic tank, concrete foundation or sidewalks, or concrete block walls. Garage building, landscaping, concrete or pave driveway or road building, site prep work, and grading or excavation work to the home or at the building site.

OIL OR GAS LEASE WORK NOC BY SPECIALIST
CONTRACTOR & DRIVERS

CLASS DESCRIP

6216 Includes the laying or taking up flow lines and water lines; installing central pumping units; and tank truck operations servicing oil or gas well sites. The following operations are not included in Code 6216 and must be separately rated: pipeline construction, tank building; rig or derrick erecting or dismantling; installation or recovery of casing; drilling, cementing, cleaning and swabbing of wells or well shooting. Not applicable to owner/operators of an oil or gas lease operation, or to a risk under contract with the lease owner that performs all operations necessary to work an oil or gas lease. Drill site preparations including but not limited to clearing land; building lease roads, slush pits, levees, or fire walls; and lease beautification or dirt work performed by a specialist contractor are classified to codes applicable to these operations, provided the services are performed prior to rig erection. Specialist contractors who perform these services during or after rig erection are assigned to Code 6216.

OIL OR GAS PIPELINE CONSTRUCTION & DRIVERS

6233 Pile driving, dredging, or tunneling to be separately rated.

OIL OR GAS PIPELINE OPERATION & DRIVERS

OIL OR GAS WELL: CEMENTING & DRIVERS

6206 Code 6206 must not be assigned at the same job or location to which Code 6235 applies because cementing would be considered incidental to drilling operations or the installation of casing. Includes flowback services when performed in support of fracturing operations.

OIL OR GAS WELL: DRILLING OR REDRILLING & DRIVERS

6235 Code 6235 applies to drilling or redrilling oil or gas wells and includes erection or dismantling of drilling rigs, formation fracturing, cementing, installation of casing, and flowback services when such operations are performed by employees of the drilling company. Cleaning or swabbing of a new well that has not yet been completed is included in Code 6235 whether performed by employees of the driller or by a specialist contractor.

OIL OR GAS WELL: INSTRUMENT LOGGING OR SURVEY
WORK & DRIVERS

6237 Not applicable to wire line-type work that involves the installation, repair, or servicing of equipment used for drilling purposes. Includes flowback engineers who only monitor and log flowback pressure.

OIL OR GAS WELL: SHOOTING & DRIVERS

6235 Includes flowback services when performed during drilling or redrilling operations.

STORE-SUPERSTORES AND WAREHOUSE CLUBS	8037	Superstores and warehouse clubs are large retail establishments with multiple departments, with each department selling a specific type of merchandise. Warehouse clubs may have a large percentage of business memberships. This does not preclude them from assignment to this classification. Due to the nature of these operations, the principal type of merchandise sold (i.e., more than 50% of gross receipts) may vary from year to year; therefore, superstores and warehouse clubs will not be classified based on the principal type of merchandise sold. A key distinction between superstores and department stores, discount department stores, or other retail operations is that superstores sell groceries such as milk, juices, cereals, crackers, cookies, frozen dinners, frozen desserts, etc., in addition to clothing and their other types of merchandise. Many superstores have full grocery operations with fresh produce, meat, seafood, and baked goods in addition to clothing and their other types of merchandise.

CLASS DESCRIP

7370 The entire payroll of all taxicab drivers shall be included in calculating the premium. In the absence of verifiable payroll records, the premium charged will be determined on the basis of the amount per vehicle per policy year for employee-operated vehicles shown in the state rate pages under Miscellaneous Values. This amount is subject to pro rata adjustment only when a vehicle is owned by the insured for a portion of the policy period. If the owner also leases or rents such vehicles, an additional premium shall be calculated on the basis of the amount per vehicle per policy year for leased or rented vehicles shown in the state rate pages under Miscellaneous Values. This amount is subject to pro rata adjustment only when the lease is for a portion of the policy period. These amounts are in consideration of gratuities, multiple shifts, downtime, vacation time or other periods during which the vehicle is not in operation. For basis of premium, for taxicab rentals wherein accurate records are obtainable for hours of use of such cab the state minimum wage shall apply (state minimum wage x hours worked = payroll). Such minimum wage shall be adjusted to be flexible to equal the increases and/or decreases in minimum wages as published in the State of Wisconsin. In those instances wherein accurate hours of use of cabs cannot be obtained, see Miscellaneous Values as published in the Wisconsin Rate Pages. Garage employees are to be separately rated to Code 8385.
